Art Unit: 3635

1. This is a first Office action on the merits for application serial number 10/691,449 filed 10/22/03. Claims 1-20 are pending.

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 602. The declaration filed 02/10/04 recites that it pertains to the specification "attached hereto". The specification was filed 10/22/03.

3. Claim 4 is objected to because of the following informalities: "the walking aid" lacks antecedent basis. Appropriate correction is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 2,306,638 to Meisler.

Meisler provides a joint mechanism comprised of a coil spring 42 having opposed ends received within bushings 34 and 46 adapted to be positioned within holes 38 and 50 of a rod 6 and tip 10. A dust cover 52 is provided.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Patent 6,488,717 to McColl et al.

McColl provides coil spring 9 and first 2 and second bushing 12.

7. Claims 7-11 are rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Patent 6,374,841 to Yamamoto et al.

Yamamoto provides rod 3, tip 1, coil spring 7a and bushings 8.

8. Claims 7, 8, 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,088,513 to Ostermeyer.

Ostermeyer provides tip 72, rod 1 and spring 68.

9. Claims 7-11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 4,510,957 to Frank.

Frank provides rod 4, tip 8', and coil spring 28.

10. Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Claims 14-20 are allowed.

12. The IDS filed 10/22/03 has been considered. An initialed 1449 form is attached.

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J. Canfield whose telephone number is 571-272-6840. The examiner can normally be reached on M-Th.
